Behind this Temple lies the megalithic **Osirion**, similar to the **Valley Temple in Giza**, that the indigenous tell us is 35,000-50,000 years old or more. It is here that several depictions of the **Flower of Life** can be seen on the huge pillars. Local villagers claim that the water that accumulates in this structure has valuable healing properties.

Afterwards, we drive to **Dendera** to visit the incredible **Temple of Hathor**. Star maps depicted on the ceilings in this temple, and the replica of famous **Dendera Zodiac** (the original is displayed at the Louvre in Paris) point to the ancient origins of astrology and superior knowledge of our cosmos. **Hathor (Het-Hert)**, the Netert who personified motherhood, beauty, sexuality, love, joy, harmony, dance and music was often associated with the planet, Venus. She was known as the **Lady of the Stars**, and represented the nurturing solar *food* of the Sun's rays, required for birth, growth and renewal.

First we visit the **Tombs of the Nobles** where we will view some of the ancient tombs filled with beautifully symbolic artwork.

**Luxor Temple**

We will explore the mysteries of the enigmatic **Luxor Temple** in the early evening. Linked to **Karnak Temple** by the **Avenue of Sphinxes**, **Luxor Temple** utilizes similar patterns of sacred geometry in its design.

After 15 years of intense study, Alchemist, **R. A. Schwaller de Lubicz**, called the **Luxor Temple** - "**The Temple of Man**", in a book in which explored the connectedness of ancient Egyptian philosophy, spirituality, mathematics, and science. Lubicz's theory that the **Luxor Temple** was designed to replicate all aspects of Man (body, mind and spirit), is well documented and has gained support from many alternative researchers, including John Anthony West. After our dinner on the ship, the rest of your evening is free.

Overnight **M/S Alyssa 5-Star Nile Cruise Ship** (B,L,D)

## April 22<sup>nd</sup> – Day 7 Friday **Karnak Temple, the Precinct of Mut and Nile Cruise**

One can never have enough time to fully explore all the riches of **Karnak Temple**, where we will spend the entire morning after an early breakfast. An avenue of ram-headed sphinxes leads us into the gigantic complex, which includes temples dedicated to **Amun**, a Neter representing an aspect or stage of the Sun, and **Khonsu**, who represents the Moon.

We will visit the powerful **Chapel of Sekhmet**, the Netert who represents the potent and purifying energies of the sun. **Sekhmet** personifies the solar rays that provide the electromagnetic energy required to sustain life and the earth's grid. As the lioness, she symbolizes the powerful and fierce, yet protective love, akin to that of any mother. **Sekhem**, means "power" and **Sekhmet** is the electrical spark that provides the necessary energy to perform what we have been told are mystical, magical and powerful feats, including the healing of the physical body. She is the Life Force. Be prepared to experience a morning you will never forget! The powerful sacred geometric design and natural elements of the architecture itself has the ability to transform and raise levels of awareness and consciousness as you walk through this and many other temples

### **Karnak Temple**

Next we will visit the newly opened **Precinct of Mut**, one of the four main temple enclosures that make up the **Karnak Temple Complex**. **Mut** is the Neter who represents the Sky at Night. She is the consort of **Amun** and gave birth to the moon, **Khonsu**. It is said that 720 or 730 statues of the leonine **Mut** (one for every day of the year, morning and evening) **once** graced this area that is cradled by a crescent shaped sacred lake.

Shortly after returning to our ship, we'll have lunch and set sail on our spectacular **Cruise on the Nile**.

Enjoy viewing the lush countryside and life along the river's banks, much of which appears as it did thousands of years ago!

Dinner on the boat with free time for relaxation **Nile Cruise** (B, L, D)

**April 23<sup>rd</sup> – Day 8 Saturday Nile Cruise with stops at Esna and Kom Ombo**

We will arrange for an early morning visit to the **Temple of Khnum** at **Esna**. The most interesting and mystical depictions in the Temple are found on the ceiling, which is decorated with astronomical symbolism, that include the sky Goddess Nut, the Dog Star, Orion's belt, and Alpha Draconis.

We'll enjoy a buffet Breakfast followed by a **Lectures by Brien Foerster and Suzan Moore**

.After an afternoon of sailing we will stop at **Kom Ombo**, where we'll visit the twin temples dedicated to the crocodile Neter, **Sobek** and **Horus, the Elder**. We will discuss the aspects of nature and our cosmos represented by the Neteru and how they relate to awakening our senses and raising our levels of awareness.

We will speak of the powerful initiations that were once practiced here, and how we can tap into the profound and self-empowering lessons experienced here by the ancients. You will also have the opportunity to view depictions of various medical instruments and alchemical healing practices.

Overnight **Nile Cruise** (B, L, D)

### April 24<sup>th</sup> – Day 9 Sunday **Temple of Isis at Philae and the Unfinished Obelisk**

We will take a motorboat to the enchanting **Island of Philae**, and the powerful **Temple of Auset (Isis)**. **Auset** is associated with the ancients' most highly revered star, Sirius. The annual rising of Sirius was synonymous with the flooding of the River Nile, which left huge deposits of silt, the very valuable black earth or "KMT" (Khemit) for which Egypt was named. She is usually depicted wearing the throne, or "seat of power", reflecting the matriarchal nature of the very ancient civilization. After sharing some of the highlights of this site together, you will have time to explore its captivating wonders on your own.

Afterwards, we will explore the famous **Aswan** quarry that is home to the 1,200 ton **Unfinished Obelisk**, that only a handful of cranes worldwide could lift today, and other significant evidence of higher technologies used by the ancient Khemitians. Overnight **Nile Cruise** (B, L, D)

**April 25<sup>th</sup> - Day 10 Monday Elephantine Island and Nubian Village**

You will have the option to travel, very early in the morning, individually, or **as a group** to the magnificent **Temples of Ramses II** and his **Queen Nefertari at Abu Simbel on the banks of Lake Nasser**.

Later in the morning we're off to **Elephantine Island**, in **Aswan**, to explore the site that is home to the temple dedicated to the Neter, **Khnum**, who was the "master of the mysteries of water". Scattered throughout this site we find many remnants displaying the superior technologies of pre-dynastic times.

Two museums here offer an eclectic and unique array of artifacts found from the different civilizations that utilized the area during various time periods.

Next we'll enjoy a scenic boat ride to a **Nubian Village** located on the banks of the Nile. Here we will visit Fatima and her charming family, and enjoy a **delicious home cooked Nubian meal**.

There will be time for shopping at the **Nubian Bazaar**, known for their offerings of fragrant spices, hand crafted items, jewelry and colorful scarves and an opportunity for a dip in the Nile.

Early evening flight to Cairo and check in to our Hotel. Overnight **Mercure Sphinx Hotel** Giza (B, L)

**April 26<sup>th</sup> - Day 11 Tuesday Dashur & Saqqara**

After an early Breakfast we will travel by motor coach to the ancient site of **Dashur** where we will visit the **Red and Bent Pyramids**, attributed to the King Sneferu. The title **Sneferu** translates as "double harmony" and refers to the different tones of frequency that these pyramids vibrate with. Yousef and Gary will help us to collectively awaken and activate the energies of the **Red Pyramid** when we enter the resonance chambers within. We'll stop for a quick lunch on our way to spend the afternoon at **Saqqara**, home of the **Step Pyramid** attributed to King Djoser.

We will experience the *still active* healing energies of the **ancient “Hospital”** at **Saqqara** and discuss the many references to the importance of balancing the polarized energies within and without. You will be lead on an exploration of the area that surrounds the **Pyramid of Wenis (Unas)**, which displays all the elements of ancient “Per Neters” or **energy devices**.

**The Serapeum** A highlight of our day will be a visit to the newly opened **Serapeum**, a huge subterranean complex.

A long hallway that runs in east/west directions is flanked by chambers that house gigantic, highly crystalline stone boxes. Many believe that Bulls associated with the Apis Bull cult were buried in them. **However--no bulls or human bodies were found in any of these huge boxes ---that were made with an extremely advanced technology.** When excavated in 1852, all twenty-four boxes, weighing 60-80 tons, had been plundered. Their lids had been pried loose and the contents taken. Our collective research shows that these boxes are far more ancient than the writings found on and around them, and were an integral part of a huge energy device. You need to view all the elements for yourself to truly fathom how it may have functioned.

Overnight **Mercure Sphinx Hotel** Giza (B, L)

April 27<sup>th</sup> – Day 12 Wednesday    **Giza and the Great Pyramid**    PRIVATE ENTRIES

**Private Visit “Between the Paws of the Sphinx” followed by a Private Entry into the King’s Chamber of the Great Pyramid.**

**We will visit the Giza Plateau for our dawn visit between the “Paws of Tefnut” (the Sphinx). We will have the opportunity to meditate together here at one of the most powerful spots on earth!**

**We will also have time to explore the area and see the evidence of water erosion that Geologist, Robert Schoch tells us was caused by rain pelting against the limestone enclosure for many centuries. Suzan will speak to us about her own findings and theories about the construction and possible age of the Sphinx. Hakim taught us that that *She*—Tefnut, is at least 32,000 years old or older! Will Suzan confirm or deny?**

**Next...we’re off to enter the King’s Chamber of the Great Pyramid**

***Yousef and Patricia will help us to achieve the *tone of resonance* with the highly crystallized granite of the chamber walls and “resonance box” during a group sound activation.***

**April 28<sup>th</sup> – Day 13 Thursday** Following breakfast you will be driven to the **Cairo Airport** for your final departure. (B)

# FEATURING SPECIAL GUEST SPEAKERS:

## Stephen Mehler

Stephen Mehler's fascination with ancient Egypt, which began at the age of eight, has guided his education and spiritual work all his life. Mehler holds three degrees in the sciences and is a trained field archaeologist and prehistorian. Mehler also served as a Staff research scientist for the Rosicrucian Order, AMORC, in San Jose, California from 1978-1980.

For almost 16 years, 1992-2008, Mehler was a student, disciple, and close friend of Egyptian-born Egyptologist and indigenous wisdom keeper, **Abd'El Hakim Awyan** (1926-2008), popularly known as Hakim. Stephen has written two books, *The Land of Osiris* (Adventures Unlimited Press, 2001) and *From Light Into Darkness: The Evolution Of Religion In Ancient Egypt* (Adventures Unlimited Press, 2005), based on his work and collaboration with Hakim and Stephen's over 45 years of research in the area. Stephen is currently Director of Research of his own Land Of Osiris Research Project. Stephen became associated with the **Khemit School of Ancient Mysticism** in 2009 and currently does tours to Egypt and other sites with them. [www.khemitology.com](http://www.khemitology.com)

Mehler has researched the phenomenon of crystal skulls since 1979, especially those known as ancient crystal skulls. Mehler has experienced and tested four skulls that he has labeled ancient artifacts, has seen as many as nine that could fit that category, and was able to work with Dr. Marcel Vogel and F.R. 'Nick' Nocerino. Stephen has written a book on the subject with David Hatcher Childress, *The Crystal Skulls: Astonishing Portals To Man's Past* (Adventures Unlimited Press, 2008).

## Brien Foerster

Brien was born in Rochester, Minnesota, U.S.A. but grew up on the west coast of Canada. At age 11, he became fascinated with the Native art of the Haida native people, and began carving totem poles, and other related art forms, learning from Native teachers. After completing an Honours Bachelor Of Science degree, Brien decided to take up carving and sculpture full time, at the age of 25. After spending 2 years working as a Project Manager on an ancient sail boat project, in Maui, Hawaii, his interest turned toward Peru.

The study of the Inca culture led to his writing his first book, *A Brief History Of The Incas*. Brien is also actively engaged with native Shipibo people from the Central Amazon of Peru, promoting the sale of their traditional arts and crafts. He written a total of 9 books, including: *Machu Picchu – Virtual Guide & Secrets Revealed*, *Inca Footprints*, *Inca: Before The Conquest*, and *Enigma Of Tiwanaku And Puma Punku*.

He also writes articles for Graham Hancock: [www.grahamhancock.com](http://www.grahamhancock.com), and is associated with Lloyd Pye of the Starchild project, who is analyzing the DNA of elongated human skulls of the Peruvian Paracas culture on his behalf. The preliminary results of this have been included in the recently published book that Brien co-authored with David Hatcher Childress, *The Enigma Of Cranial Deformation: Elongated Skulls Of The Ancients*.

## Suzan Moore - Geologist

Born and raised on the prairies of Saskatchewan Canada, Suzan developed a keen interest in nature, rocks and stars at an early age. That passion later led her to pursue a Geology degree with a minor in Astronomy. Suzan has been working as a **Geologist** in Canada for over 40 years. She originally worked in both mining and regional mapping of granites and metamorphic rocks in northern Saskatchewan and the North West Territories. She has been working for many years as a **Sedimentological Specialist** in the Oil and Gas industry in Calgary Alberta, specializing in the Jurassic of Western North American.

She has always had an interest in Ancient Egypt and, since her first visit, returns regularly. After a trip to Peru in 2013 she developed a passion for understanding megalithic structures and the rocks they are carved from which led her to explore their implications in Egypt as well. She is currently trying to incorporate how weathering, time and source of the rocks affect the construction and preservation of many of the megalithic structures.

Suzan offers a unique and fresh perspective on the description, consistency and use of the various types of rocks and materials used in the ancient structures here.
